JOURNAL OF APPROXIMATION THEORY **58**, 246 (1989)

Erratum

Volume **57**, Number 2 (1989), in the article "Proof of Power Series and Laurent Expansions of Complex Differentiable Functions without Use of Cauchy's Integral Formula or Cauchy's Integral Theorem," by Oved Shisha, pages 117–135: On page 122, Eq. (10) should read

$$\widehat{\iint}_{\substack{R_1 \leqslant r \leqslant R \\ 0 \leqslant \varphi \leqslant 2\pi}} f'(re^{i\varphi})\, dr\, d\varphi = \int_0^{2\pi} e^{-i\varphi}[f(Re^{i\varphi}) - f(R_1 e^{i\varphi})]\, d\varphi, \qquad (10)$$

instead of

$$\iint_{\substack{R_1 \leqslant r \leqslant R \\ 0 \leqslant \varphi \leqslant 2\pi}} f'(re^{i\varphi})\, dr\, d\varphi = \int_0^{2\pi} e^{-i\varphi}[f(Re^{i\varphi}) - f(R_1 e^{i\varphi})]\, d\varphi, \qquad (10)$$

and on page 133, line 12 should read "$\varphi_k^{(j)} - \varphi_{k-1}^{(j)} < \rho,\ k = 1, 2, \ldots, \mu_j$" instead of "$\varphi_k^{(j)} - \varphi_{k-1}^{(j)} < \rho, k = 1, 2, \ldots, n_j$."
